

# COVID Corner

In an effort to better communicate we are introducing the COVID Corner. This will be updated weekly to include procedures, policies, and Health Department updates.

**Travel UPDATE** - Based on the recommendation from the CDC and MDHHS we are reducing the travel quarantine from 14-days to 10-days! So your student will need to quarantine for 10-days, and return to school on Day 11. From the time you return to Michigan

The Health Department is looking for volunteers to help with vaccine distribution. They are especially in need of those with a Medical background to distribute the vaccine. If you would like to volunteer please fill-out the survey on the BEHD website.

Remember if you are a remote learner who would like to return for the final quarter, we need to know by March 22nd.

## Health Department Update

The BEHD shared today that they are starting the roll-out of vaccines for 50 and older with underlying health conditions. Also, they opened it up for those of you that are in agricultural processing jobs. They also shared that they have enough vaccines that if you are in this category, or previous category you can sign-up on the website and you will get an email usually within a week.
